

# Chinese Language School of Fairfield County

## Parent Activity Sign-up Sheet

### 2005-2006

As a community based school run by volunteers, we encourage that parents actively participate in the running of the school. Much has to be done in order to have a smoothly functioning school. This year, the Organization of Chinese Americans, Fairfield County Chapter (OCA-FC) has kindly offered to work with our parents and Young Professionals Group, which affiliated with OCA-FC, in a series of free adult learning workshops to be held at our school during class time. We hope to identify areas that are of common interest that both groups would like to learn more about. We hope you will find these interesting and will come and participate. Potential topics are listed below:

Please select one or more areas below that you would like to be involved in.
